

**Healthy Return™**

## Workers' Compensation Patient Testimonial

On December 5, 2006, while I was working as a Miami-Dade corrections officer, I was severely injured in a car crash. Suffering from injuries in my lower back, left hip, and knees, it was impossible for me to continue to lead a normal life. Months of failed treatments led me to do research of my own. I found Southern Orthopaedic Specialists online, but it was when my husband was referred to the practice after an injury of his own, that I knew there was more to look into.

The very moment I visited Southern Orthopaedic Specialists it was all about me and my care. From the receptionist to the orthopaedic surgeon, their tenderness and concern was genuine. Southern Orthopaedic Specialists had a level of professionalism and integrity that showed me I could trust the treatment options they recommended.

Nearly two years later and after surviving arthroscopic knee surgery, epidural injections, and extensive physical therapy, I have made a full recovery! There is no doubt that the staff at Southern Orthopaedic Specialists love their jobs, because I am their active, healthy proof!
